

Partner guide

- [Dashboard \(Partner\)](#)
- [Projects](#)
- [Customers](#)
- [Settings \(Partner\)](#)
- [Integrations](#)

This guide is for the "partner" type user group, and describes the views and functions available to partner users.

If you are using our hosted **dynaBOARD** product (either in conjunction with a JIRA cloud instance or a self-hosted JIRA version) the partner user is your administrative user with which to set up customers /teams, projects, etc.
